## REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

During the 2009-2010 school year, there continued to be strong evidence of continuous growth and improvement at Hyatt Park Elementary School. We were extremely pleased to announce that we made Adequately Yearly Progress (AYP) based on student performance on 2009 PASS. During the 2009-10 school year, teachers and instructional support staff received a wealth of training, support, and resources designed to assist them in meeting instructional needs and tailoring instruction to address the needs of individual learners. Our instructional program continued to be enhanced by services provided by teams of instructional support staff and interventionists who worked with targeted groups of students during the school day to provide interventions and academic assistance. Teachers worked with our literacy and math coaches to refine teaching practices and to identify the most effective methods for teaching and supporting our students.

After-school/extended day programs and services were significantly enhanced as the result of being awarded a 21st Century Learning Communities Grant. Partnerships with EdVenture, USC, and Midtown Fellowship were established as a result of the grant. These partnerships have provided for more comprehensive after-school program services thereby increasing our ability to assist students in meeting academic goals and requirements. Additionally, supplemental tutorial services were provided by supplemental service providers to support students in meeting academic requirements.

All students were eligible to participate in a laptop lending program. Laptops were loaded with the SuccessMaker program that provided support in reading and mathematics. School wide literacy initiatives were implemented to increase the number of students reading at or above grade level. Diagnostic assessments administered at the beginning of the year to students in kindergarten through third grade indicated that growth and improvements have occurred in the areas of reading, language, and literacy development. MAP data revealed a significant increase in the number of students making expected gains in mathematics. A yearlong school-wide initiative designed to increase student achievement in mathematics was successfully implemented.

Parents are our first and most important teachers. In addition to parent-conferences, PTO meetings, academic night activities, and the Parent-Child-Home initiative was implemented. This program provided monthly home visits/literacy sessions for parents of pre-school aged students. The Books and Breakfast Program provided bi-weekly sessions designed to promote literacy and foster home-school relationships. Family Night activities, which were planned in collaboration with Midtown Fellowship, were well attended and well received by parents and the community.

During the upcoming school year, we will continue our efforts to significantly increase student academic achievement through the effective use of data, by remaining clearly focused on learning and by fostering positive relationships and collaboration among our staff, students, parents and the community.
